Includes the following components:

We give you
direct
expert support
rather than a call center

Integration
of other applications,
wherever you may
be using these

Document manager
You won't need any
other document
processing or archiving
system as you move
forward to a
paperless office

You could be
working in
your own, private,
secure cloud.
In-house or at AS-Lingo
in Germany

Our service package contains:

All components of this application system
Your **own, private, secure** Cloud
Backups of all your data
Application support
Technical support
Tutorial/Training when you go live

Special offer

Once a month we stage a draw:
The winner will receive
free migration
of the data from their present system
(valid until September 2016)

Your **ERP System** ready to take you into the future

as·lingo

In use worldwide for **more than 25 years**

Our customers ...

supply automotive manufacturers worldwide, e.g.

Audi/VW, BMW, Daimler, Delphi, Faurecia, General Motors/Opel, Johnson Controls, Lear,Leoni, Pilkington, Porsche and many more

Equipped for the future

The key to your success and retaining your competitive edge is a comprehensive and clear IT-Strategy. Your strategic IT planing is a crucial success factor when assigning IT resources in your company.

AS-Lingo is an **open, platform independent ERP-System** with which you can safely plan the growth of your business.

Simple and fast implementation, flexible adaptation, enormous scalability (whether you have 5 or more than 5000 users) and world wide access are some of the highlights in AS-Lingo.

Business Intelligence and **prognostic Analyses** are already part of a sophisticated reporting system which is now being enhanced by the availability of **„Big Data“**.

We accompany and support you in creating your requirements profile, creating and enhancing your data models and optimising your implementation.

Regulatory and **compliance** issues (e.g. Sarbanes-Oxley) are well supported.

More Highlights

- **Excellent quality and high availability**
- **Country Plugins**
  All legal rules you are confronted with in othercountries are available to you
- **Customer Plugins**
  We develop your individual functional requirements for you and make them available as your own AS-Lingo components
